Technical specifications i-walk 46

Theoretical performance	1325 m ² /h
Practical performance	up to 700 m ² /h (depending on environment)
Operational speed	max 1 m/s
Sensor range	up to 50m 90% reflectivity, up to 15m 15% reflectivity
Runtime	i-power 9: 4 h i-power 14: 7h
Dimensions	725 x 565 x 516mm
Sensing	1x 2D Lidar, 3x 3D TOF sensor, 3x ultrasonic sensor, bumper strip, drive motor torque protection
Features	obstacle avoidance (auto fill), fleet management system

Technical specifications i-mop XL

Operation width	46 cm
Brush speed	350 rpm
Brush pressure	22,5 kg
Clean water tank	4 L
Recovery tank	5 L
